OPTION 1: Remote Proctoring via platforms like Zoom, WebEx, or Microsoft Teams

- DRC now supports proctoring for TABE® 11&12 through web conferencing platforms. This solution allows TABE test administrators to remotely proctor live test sessions via these platforms following DRC protocols.
- Test sessions created locally in the TABE Online Portal
- Proctored with local staff at no additional cost
- TABE licenses used from your current TABE Online account
- All TABE Reports are available and accessible after testing is complete in the TABE Online Portal
- No additional costs

OPTION 2: Remote Proctoring with ProctorU

- ProctorU is a third-party proctoring service that allows testing centers to quickly and securely administer TABE 11&12 to students who need to test from home or another remote location.
- Test sessions created locally in the TABE Online Portal
- If you need a proctor TABE can be administered one-on-one with a ProctorU proctor
- TABE Online licenses used from current TABE Online account
- All TABE Reports are available and accessible after testing is complete in the TABE Online Portal
