LEVEL E
TABE 11 \& 12 MATHEMATICS BLUEPRINT OVERVIEW

| $\begin{aligned} & 0 \\ & 0 \\ & \infty \\ & \stackrel{1}{N} \end{aligned}$ | STANDARD | STANDARD DESCRIPTION | AE-CCR <br> LEVEL | TABE 11/12 EMPHASIS LEVEL |
| :---: | :---: | :---: | :---: | :---: |
|  | 2.NBT. 1 | Understand that the three digits of a three-digit number represent amounts of hundreds, tens, and ones; e.g., 706 equals 7 hundreds, 0 tens, and 6 ones. Understand the following as special cases: (2.NBT.1.a, 2.NBT.1.b) | B | Low |
| ш | 3.NBT. 1 | Use place value understanding to round whole numbers to the nearest 10 or 100. | B | Medium |
| < | 2.NBT. 2 | Count within 1000; skip-count by $5 \mathrm{~s}, 10 \mathrm{~s}$, and 100 s . | B | Medium |
| $\underline{\square}$ | 3.NBT. 2 | Fluently add and subtract within 1000 using strategies and algorithms based on place value, properties of operations, and/or the relationship between addition and subtraction. | B | Low |
| Z | 2.NBT. 3 | Read and write numbers to 1000 using base-ten numerals, number names, and expanded form. | B | Low |
| 嵒 | 3.NBT. 3 | Multiply one-digit whole numbers by multiples of 10 in the range $10-90$ (e.g., $9 \times 80$, $5 \times 60$ ) using strategies based on place value and properties of operations. | B | Medium |
| ○ | 2.NBT. 4 | Compare two three-digit numbers based on meanings of the hundreds, tens, and ones digits, using $>,=$, and $<$ symbols to record the results of comparisons. | B | Medium |
| < $\sim$ $\sim$ | 2.NBT. 6 | Add up to four two-digit numbers using strategies based on place value and properties of operations. | B | Medium |
| $\sum_{\sum}^{\infty}$ | 2.NBT. 7 | Add and subtract within 1000, using concrete models or drawings and strategies based on place value, properties of operations, and/or the relationship between addition and subtraction; relate the strategy to a written method. Understand that in adding or subtracting three-digit numbers, one adds or subtracts hundreds and hundreds, tens and tens, ones and ones; and sometimes it is necessary to compose or decompose tens or hundreds. | B | Medium |

| :---: | :---: | :---: | :---: | :---: |
|  | 2.G. 1 | Recognize and draw shapes having specified attributes, such as a given number of angles or a given number of equal faces. Identify triangles, quadrilaterals, pentagons, hexagons, and cubes. | B | Medium |
|  | 3.G. 1 | Understand that shapes in different categories (e.g., rhombuses, rectangles, and others) may share attributes (e.g., having four sides), and that the shared attributes can define a larger category (e.g., quadrilaterals). Recognize rhombuses, rectangles, and squares as examples of quadrilaterals, and draw examples of quadrilaterals that do not belong to any of these subcategories. | B | Medium |
|  | 3.G. 2 | Partition shapes into parts with equal areas. Express the area of each part as a unit fraction of the whole. For example, partition a shape into 4 parts with equal area, and describe the area of each part as $1 / 4$ of the area of the shape. | B | Low |
|  | 2.G. 3 | Partition circles and rectangles into two, three, or four equal shares, describe the shares using the words halves, thirds, half of, a third of, etc., and describe the whole as two halves, three thirds, four fourths. Recognize that equal shares of identical wholes need not have the same shape. | B | Low |

|  | STANDARD | STANDARD DESCRIPTION | AE-CCR LEVEL | TABE 11/12 EMPHASIS LEVEL |
|  | $3 . M D .1$ | Tell and write time to the nearest minute and measure time intervals in minutes. Solve word problems involving addition and subtraction of time intervals in minutes, e.g., by representing the problem on a number line diagram. | B | Medium |
|  | 2.MD. 2 | Measure the length of an object twice, using length units of different lengths for the two measurements; describe how the two measurements relate to the size of the unit chosen. | B | Low |
|  | 3.MD. 2 | Measure and estimate liquid volumes and masses of objects using standard units of grams (g), kilograms (kg), and liters (I). Add, subtract, multiply, or divide to solve onestep word problems involving masses or volumes that are given in the same units, e.g., by using drawings (such as a beaker with a measurement scale) to represent the problem. | B | Medium |
|  | 2.MD. 3 | Estimate lengths using units of inches, feet, centimeters, and meters. | B | Low |
|  | 3.MD. 3 | Draw a scaled picture graph and a scaled bar graph to represent a data set with several categories. Solve one- and two-step how many more and how many less problems using information presented in scaled bar graphs. For example, draw a bar graph in which each square in the bar graph might represent 5 pets. | B | Low |
|  | 2.MD. 4 | Measure to determine how much longer one object is than another, expressing the length difference in terms of a standard length unit. | B | Low |
|  | 3.MD. 4 | Generate measurement data by measuring lengths using rulers marked with halves and fourths of an inch. Show the data by making a line plot, where the horizontal scale is marked off in appropriate units - whole numbers, halves, or quarters. | B | Low |
|  | 3.MD. 5 | Recognize area as an attribute of plane figures and understand concepts of area measurement. (3.MD.5.b) | B | Low |
|  | 2.MD. 6 | Represent whole numbers as lengths from 0 on a number line diagram with equally spaced points corresponding to the numbers $0,1,2, \ldots$, and represent whole-number sums and differences within 100 on a number line diagram. | B | Low |
|  | $3 . M D .7$ | Relate area to the operations of multiplication and addition. (3.MD.7.a, 3.MD.7.b, 3.MD.7.c, 3.MD.7.d) | B | High |
|  | 3.MD. 8 | Solve real world and mathematical problems involving perimeters of polygons, including finding the perimeter given the side lengths, finding an unknown side length, and exhibiting rectangles with the same perimeter and different areas or with the same area and different perimeters. | B | Medium |
|  | 2.MD. 10 | Draw a picture graph and a bar graph (with single-unit scale) to represent a data set with up to four categories. Solve simple put together, take-apart, and compare problems using information presented in a bar graph. | B | Low |
