

TABE 11&12

Calculators

The TABE® 11&12 Math test utilizes two calculator types. Level M of TABE 11&12 Part 2 uses a standard four function calculator. Levels D & A of TABE 11&12 Math Part 2 both use a scientific calculator. In TABE Online the appropriate calculator will be displayed on screen when allowed. If a handheld calculator is preferred below is a list of non-programmable scientific calculators that can be used.

A calculator with all functions necessary for TABE Online is available for the online tests in DRC INSIGHT™.

An online DRC INSIGHT calculator practice sheet is available.
