

TABE & TABE CLAS-E SCANNER REQUIREMENTS

SCANNER REQUIREMENTS:

- A “duplex” scanner that scans both sides of a page in one pass
- An automatic document feeder
- Scanner must be TWAIN compliant and the full scanner software suite installed
- Scanner must be connected directly to computer by USB or Wireless (no networked scanners)
- Scanner must have Image-based scanning capability

SCANNER EXAMPLES

The scanners listed below meet the requirements for scanning TABE & TABE CLAS-E answer documents.

Note: The scanners listed below are not suggestions or recommendations; they are simply examples of commonly available products that meet the scanning requirements.

EPSON:

Epson DS-530, Epson DS-780N, WorkForce ES-500W, WorkForce ES-400, and WorkForce ES-300W

BROTHER:

ImageCenter™ ADS-2800W, ImageCenter™ ADS-3600W

SCANTRON:

Scantron Insight 4ES, Scantron Insight 20 Plus

RICOH/FUJITSU:

RICOH/FUJITSU fi-7160, RICOH/FUJITSU fi-8170

Note: Avoid the RICOH/FUJITSU ScanSnap iX Scanner Series because it does not support TWAIN.
