

NEW OFFLINE TESTING OPTIONS

NEW OFFLINE TESTING OPTIONS

Now you can assess students on your local network without the need for students to be connected to the internet. TABE provides information about an individual's strengths and weaknesses and gives information about foundational skills, which is necessary for educational placement.

- A fully offline and secure testing experience for correctional education
- Perfect for rural locations in need of an offline testing solution
- Easy to use for TABE administrators
- Easy to use for students with little or no experience testing on computers
- Utilizes TABE Online Portal for administrative registration
- Students test on non-internet-connected computers
- Responses are uploaded to TABE Portal for scoring, reporting and access to all TABE diagnostic reports
