DEFINITIONS

- **Locator Answer Document** - A scannable form used exclusively with the TABE 13&14 Locator test. This document is processed using DRC Local Scanning.
- **Scannable Answer Document** - A scannable form used with any TABE 13&14 test at Levels E, M, D, or A. These documents must be processed using the DRC Local Scanning Tool. Hand scoring is not supported for Scannable Answer Documents with TABE 13&14.
- **DRC Local Scanning** – Scanning solution provided by DRC for processing TABE 13&14 Locator and E,M,D,A Answer Documents. Scanned data is stored in the TABE Online database and reporting is available through the DRC INSIGHT Portal. SCOREZE Answer Documents are not compatible with this tool.
- **SCOREZE Answer Document** - A specialized, hand scorable form designed for use with TABE 13&14 testing. Each SCOREZE document includes an internal answer key that is completed automatically as the student marks the outer surface. These forms cannot be processed through DRC Local Scanning and will not generate digital reports. Sites using SCOREZE should also order the TABE 13&14 Scoring Tables and Individual Diagnostic Profiles for manual score interpretation.
- **Scoring Tables** - TABE 13&14 Scoring Tables (sometimes referred to as Scoring Guide) are used in conjunction with the SCOREZE Answer Documents and includes the score conversion charts needed to convert raw scores to scale scores and NRS levels.
